

# Content Management System (CMS)

## Upload

Upload your own media from JPEGs to MP4s/ Your content can be edited using the CMS designer or combined into playlists.

## Design

Use the CMS designer to create content from scratch or edit media with a range of widgets to choose from.

## Schedule

Your content can be scheduled for short campaigns or coincide with our playlists to be a continuous display on your screens.

## Display

Display your content across one or multiple screens and keep track of display statistics and proof of play,
